

Brothers and Sisters;

As we enter a new program year with new officers and program chairman this should give us an opportunity to have a fresh perspective and a good jump start for a strong year in working for our Veterans.

Please remember when you see or receive information from National, Department, or District it is NOT JUST FOR YOU, it is to be passed along to all members of the Auxiliary. The more we share the more we can do to help our Veterans and the Auxiliary with HANDS THAT SERVE, HEARTS THAT CARE. As our training academies are happening to get and share ideas And you have the names and mailing information for chairman be sure that You have sent all your reports from April so all your work can be recorded.

BEE ALL YOU CAN FOR VETERANS AND THEIR FAMILIES, look at our National President Jane's and Department President Debby's special projects to see How you can participate and then report your actions.

Your Past Department Presidents and line officers are always a phone call Away to answer questions and help when and where needed.

Keep up the good work and THANK YOU for all you do for our Veterans.
