

Hello Brothers and Sisters,

The new program year has officially started. The National Convention was fantastic as always except for the heat.

One of the projects that we are doing this year is to make a video tape of members that have loads of knowledge in our Auxiliaries. There are many questions that can get them started. These are to be 3-5 minutes long. After editing them, put them on a flash drive and mail it and the form to me. Your Auxiliary can send in more than one video if you wish, as we have many members that can be interviewed. If you wish, Alysén and I can come to you with her camera, and we can help you with this project. Just let me know.

Remember to REPORT, REPORT, REPORT. I am already getting some in, which I appreciate very much.
