

OCTOBER 2022

Hello Brothers and Sisters,

Are you sending your photos and reports of what you are doing to me? I have received some at this time but not very many. Did you join us when National President Jane visited us and go to the Clackamas Village, Oregon Gardens or the dinner? Did you take pictures that I have not received yet? I am looking forward to seeing your pictures so that I can put them in Debby's book. Has she been at your District meeting, and you took pictures with her and the members that were present? Please send them to me.

I have an idea for anyone wanting to start going thru the chairs of any Auxiliary, District or Department level of any organization, to start taking pictures of your travels and experiences when you start at your first level, whether it be guard or a position in between there and President. Many members don't think about starting to journal their journey that early, but it is a great way to show how much you have grown going thru that experience. You can make a book for every year and the final one for the year that you are President.

We are coming up on Western Conference in Portland very quickly. I know I will have a lot of help documenting the fun and work that we are doing as an Auxiliary with photos and laughter and work. I will accept anyone's photos gladly as I can not be everywhere all the time. I know we will get some great shots from everyone.

See you at Western Conference.

Kathy McCauley
