

OCTOBER 2023

Brothers and Sisters,

Thank you for the reports that have been flowing in. There has been a lot of great mentoring happening.

In September I was invited to attend Comic Con with the Department Post. It was the first time for doing a booth at this event. I was able to do some mentoring with the Post members in the booth and recruited a few members in the process. I look forward to doing working the booth again next year.

I have a challenge for every Oregon Auxiliary for now to Mid-Winter Conference. Please share what you are doing to mentor your new members from the time they are voted in, to every meeting and function they attend. How are you including them and making them feel welcome? Share in your report from now until January and the best idea will receive an award. Keep up the good work and keep those reports coming in.
