

OCTOBER 2022

Hello Sisters and Brothers,

School has started! With the youth being in activities, with the library, scouts, 4H, youth groups in the local churches, charter schools, private schools, home schooling and don't give up on the public schools. Take the opportunity to reach out for the educational mount.

Many of our Auxiliaries are out helping the Posts with their youth programs, if you are one of these members and even though this is not our program you are still having contact with youth so right it down as youth contact on your reports.

It is never too early to be handed out forms for the Red, White, and Blue and the Illustrating America Art. If you have a Buddy Poppy Table include some of the coloring pages, book markers and pencils along with other program information

Thanks to all of the auxiliaries that have sent in their reports and keep them coming.

I look forward to working with all of you. If you have questions please contact me:

Phone (541)-660-4786.

Our Youth Activities offers programs for children of all ages. The variety gives them the opportunity to choose one that sparks their interest, learn new things and earn awards while having fun all at the same time. With the help of volunteers, we can assist them in their choice.
